All West Bound Trains

Must Submit to Inspection at Pittsburg.

A Passenger on the Eastbound Pittsburg Train Creates a Sensation.

The Situation In and About New York—No New Cases Reported Today.

PITTSBURG, Sept. 15.—Today the health authorities of Pittsburg took steps towards the erection of an emergency hospital for the accommodation of cholera patients. The building, 30x70 feet, will be erected on the hillside overlooking the Pennsylvania railroad tracks, near the location of the West Pennsylvania hospital. On and after today all immigrant trains on the Baltimore and Ohio railway will be held in quarantine at Rankin station, just outside the city limits. Three comfortable coaches will be placed on a side track there for the reception of indisposed or suspected foreigners. Two officers and a physician will thoroughly inspect every train upon its arrival. If any on board are ill they will be removed to the hospital cars, where they will be attended by nurses and physicians in the employ of the company. Each train and baggage car of the passengers will be fumigated before they will be permitted to enter the city. Like restrictions will be instituted on the trains arriving from the east on the Pennsylvania railroad. Quarantine will be established at Walls station, fourteen miles east of Union station. The passengers on the eastbound Chicago express, No. 8, on the Pittsburg, Fort Wayne and Chicago railroad had a terrible fright this morning. When fifteen miles west of the city, Mrs. Crane, of Janesville, Wis., who was traveling with a party enroute to Washington, was taken suddenly and seriously ill. Conclusions were jumped at and her ailment was pronounced Asaitic cholera. When the train arrived in Pittsburg a physician and an ambulance were in waiting at the union station. After a hurried examination by the physicians they announced that the ailment was heart trouble and the patient was removed to the West Pennsylvania hospital.

FLEEING FROM FIRE ISLAND.

BABYLON, L. I., Sept. 15.—Babylon was excited at midnight by stories to the effect that the cabin passengers of the Normannia had escaped from Fire Island. Conductor Freeze, of the Long Island railroad, came to the Watson house late last night and said he had a passenger from Babylon for New York who had paid his fare in German gold. The passenger was accompanied by several women and the party was nervous. Later a boatman said to some persons whom he met that he had earned $130 since dinner by bringing a party of persons from Fire Island that had come from the Cepheus.

CHOLERA ON THE STEAMER LAKE HURON.

QUEBEC, Sept. 15.—Following upon the heels of the report from New York of five deaths in the city from Asaitic cholera comes a report that the Lake Huron, now on her way up the river and which passed Father Point yesterday morning, has Asiatic cholera on board and that six deaths have occurred during the voyage. The Lake Huron has not yet reached quarantine and until she does no confirmation or denial of the report can be expected.

CINCINNATI UNDER QUARANTINE.

CINCINNATI, Ohio, Sept. 15.—Health Officer Prendergast, when informed that the cholera had broken forth in New York, said: I will declare the city of Cincinnati under quarantine. It will be as strict as martial law during the war. We are threatened with an enemy whose ravages are horrible to contemplate and no effort will be spared to prevent its introduction into the city. Every port in the state will be quarantined and guarded.

INFECTED SHIPS WILL BE SENT BACK.

NEW YORK, Sept. 15.—President Campbell, of the Hoboken board of health, visited Dr. Jenkins at quarantine yesterday and was assured that the Normannia, Scandia, Moravia, or Rugia would not be allowed to come up to Hoboken. He said their cargoes would be taken off in lighters. The ships, after being thoroughly fumigated, will be supplied with coal and sent back to Hamburg in ballast.

STRICT QUARANTINE RULE ADOPTED.

ST. LOUIS, Sept. 15.—The railroads leading east from this city have begun to adopt methods to prevent the transportation of cholera infected immigrants. In accordance to this several of the lines have issued strict orders to station agents and all keepers of buildings over which the company has control, directing that a careful and full examination and report be made at once of all unsanitary conditions which the agents have not the means or authority at hand to remedy at once. No recent arrivals from Europe are now being brought from New York or any of the eastern sea ports which are not armed with bills of health or certificates showing that the holders do not hail from a port of Europe afflicted with disease.

MAY QUARANTINE AGAINST NEW YORK.

DETROIT, Mich., Sept. 15.—Since news was received of the outbreak of cholera in New York city the possibility and practicability of extending Detroit's quarantine to cover that city is being discussed by the board of health. Mayor Pingree favors it, but thinks it would be better to wait a little until the out look in New York grows more serious in its aspect. The matter will be further considered at the next meeting of the board.

FAVORS A SUSPENSION OF IMMIGRATION.

CHICAGO, Sept. 15.—Mayor Washburne received a message from Mayor Pingree, of Detroit, this morning asking him to join with sixteen other cities in memoralizing the president to suspend immigration for ninety days. The mayor sent the following reply: "After consultation with the state board of health I am prepared to join in a memorial to the president urging suspension of immigration, not for ninety days, but until all danger of a cholera epidemic is passed."

FOUR NEW CASES.

QUARANTINE, Sept. 15.—It is reported that there were four new cases of cholera on the Scandia, and that one child on the Wyoming is suffering with sickness which is thought to be cholera. The remainder of the fleet was in good condition up to 2 p. m.

THE SITUATION AT QUARANTINE.

North German Lloyd steamer Trave

QUARANTINE, S. I., Sept. 15.—The from Bremen arrived early this morning. She brings 209 cabin passengers, and all are well. The Trave passed the Hamburg steamer Bohemia at 8 a. m. Wednesday. The Bohemia should reach this port tonight.

Dr. Jenkins says the passengers of the Normannia will not be released from Fire Island until tomorrow, by their request, as they prefer to wait until then and be transferred to the city by boat.

The Cepheus left the upper quarantine boarding station shortly before noon for Fire Island to take on the baggage of the Normannia's passengers who are quarantined there. She will return with the passengers tomorrow morning.

HEALTH OFFICERS VERY CARELESS.

LONDON, Sept. 15.—Considerable surprise has been aroused by the recklessness of the health authorities at Dover as shown in an instance yesterday. Six stowaways from a cholera infected street in Antwerp were landed yesterday at Dover from the steamer Appollo, bound for New York. No opposition to their landing was made at Dover and they started for London. The local government board had been notified by the government and when the stowaways arrived at Canterbury, fifty-three miles southeast of London, they were placed in quarantine. The Dover health officials have been warned against a repetition of such negligence.

THE SITUATION IN EUROPE.

VIENNA, Sept. 15.—Fifty-nine cases of cholera and fourteen deaths were reported at the Lublon, Russian Poland, on Saturday. The governor of Lower Austria has decreed that hotel rooms that have been occupied by cholera patients shall not be used again during the prevalence of the epidemic.

PARIS, Sept. 15.—Eight deaths from cholera were reported in this city yesterday. Up to 8 o'clock at night no new cases were reported.

HAVRE, Sept. 15.—There is but little change in the cholera situation, except a decline in the number of deaths. Thirteen new cases were reported here yesterday, against eleven new cases and seven deaths on Tuesday.

TEHERAN, Sept. 15.—The deaths from cholera in this city between September 6 and 11 were 2,335. In the Shah's camp at Sultaneryah, 150 miles northwest of Teheran, in the province of Irakajemee, there have been 130 deaths from cholera.

ANTWERP, Sept. 15.—Two children and a sailor died yesterday, of cholera, and two persons sick with the disease were taken to the hospitals. The authorities are accused of not taking due precautions for the supression of the disease. A quarantine of seven days has been declared against vessels arriving from Bremen.

ROTTERDAM, Sept. 15.—A case of cholera was reported yesterday in this city.

FREIGHT TRAINS COLLIDE.

Many Thousand Dollars Worth of Property Destroyed.

NEW BRUNSWICK, N. J., Sept. 15.—A wreck occurred about 7:30 last night on the Pennsylvania railroad near Princeton Junction, by which thousands of dollars worth of property was destroyed or damaged and four men so badly injured that it is thought they will die. Two freight trains, running at a high rate of speed, collided, demolishing both engines and many cars, and piling the tracks high with wreckage. Traffic was delayed for over four hours. All the injured men are employes of the railroad.

GOVERNOR BOIES

Opens the Campaign in Iowa—Thousands of People Turn Out to Hear Him.

CARROLL, Iowa, Sept. 15.—Governor Boies opened the Iowa campaign for the democrats here this afternoon before an immense audience, that completely filled the public park. He arrived from the east at 3 o'clock, and was met by a reception committee and escorted to the park, where he at once began his speech.

Governor Boies, after a few preliminary remarks, addresed himself to the tariff question, which he discussed at great length. He also took up the reciprocity scheme, which he characterized as "free trade to the extent stipulated in the contract between this country and the country with which the agreement is made, accomplishing through mutual arrangement with individual nations instead of general laws that effect all nations alike. He declared, however, that reciprocity treaties were never made with countries that take large quantities of farm products; hence the farmer did not profit by them. Governor Boies then repeated the famous statement, made in his speech at the tariff reform banquet in New York in 1890 that the corn crop of Iowa had sold for $7.33 an acre, or sixty-seven cents less than it had cost to produce it, saying nothing about the use of land on which it was grown. He then continued: "The estimate of the cost of producing corn was based solely upon the opinion of practical farmers in our own state, and the yield per acre and the market price was taken from the most reliable statistics attainable. They presented, however, a most startling fact. They demonstrated a truth of which the farmers themselves had been ignorant, for it showed that during those years they had been producing the most important crop raised on their farms at a heavy loss if their labor was calculated at the price others received for similar work in other lines of business. There are few of you, my hearers, who do not still remember the spirit in which this great question so vital to the farmers of Iowa was met by the protective organs and orators of the state. I want the farmers to realise what is true, that they of all others are the victims of a protective tariff. That it is upon them that its heaviest burdens are laid and to them that the least of its blessings are given, and knowing this if they still feel it their duty to uphold this system because they were republicans when other issues were involved, or because their fathers before them were republicans, this is their business, not mine." Governor Boies then took up in turn the currency question, the federal elections bill and prohibition, closing with a review of state issues.

His reception was most cordial, and the telling points of his address were loudly cheered. The governor will be given a dinner this evening, and afterward will leave for Sioux City, where he will review the national guard.

BROOKSHIRE WILL HANG.

An Armed Mob Now After Him for That Purpose.

LEXINGTON, Ky., Sept. 15.—Alonzo Brookshire was secretly taken from the Lexington jail yesterday afternoon to Frenchburg for trial for murdering Jailor Liston and Deputy Sheriff Howard. The news comes from Mt. Sterling this morning that a mob of 100 men armed to the teeth left there last night for Frenchburg, for the avowed purpose of lynching Brookshire this morning. They say they will not wait for night, because they have been foiled so often before.

HEAVY LOSSES.

Fire Destroys a Carriage Factory and Damages Other Buildings.

NEW YORK, Sept. 15.—George Meyers' carriage factory, in the rear of 225 and 227 East Thirty-sixth street, was destroyed by fire this morning. The flames extended to Charles Fils' furniture factory, 222 and 224 East Thirty-seventh street, and the furniture factory of F. Vogle & Co., both of which were more or less damaged. The loss is placed at $100,000.

THE REPORT DENIED.

The Mayor of Mobile Says no Yellow Fever Exists There.

MOBILE, Sept. 15.—Telegraphic inquiry came yesterday from several neighboring cities saying it was reported that there are five cases of yellow fever in Mobile. The health officer and mayor have answered that there is no yellow fever here and that this summer has been the healthiest in the history of the city.

A DRUNKEN BRUTE

Shoots His Wife Because She Refuses to Give Him Money.

HORNELLSVILLE, N. Y., Sept. 15.—Pratt, a soldier of the late war, shot his wife yesterday afternoon, and immediately afterwards shot himself in the head. The wife will die. Pratt was locked up. The trouble arose out of Mrs. Pratt's refusal to give him money for liquor.

FORT WAYNE HONORED.

Two of Her Commanderies Awarded Prizes at Lafayette.

A competitive drill was held at Lafayette yesterday afternoon in connection with the meeting of the State Council of the Catholic Benevolent Legion. Emmet Commandery, Knights of St. John, of Fort Wayne, received first prize, $100, and Wayne Commandery, also of this city, second prize, $50. In the street parade the Weber Zouaves, of Indianapolis, received first prize for best appearance, in the shape of a fine banner, and their commander, Capt. Jacob Fox, received a handsome charm as best commander. The Collier Zouaves, of Indianapolis, received second prize, an elegant silk flag.

MORE ENCOURAGING

Is the News From Mrs. Harrison's Bedside—The Patient is Slowly Improving.

LOON LAKE, N. Y., Sept. 15.—A very slight change for the better was noticeable in the condition of Mrs. Harrison this morning. Dr. Gardner made an examination at an early hour and found that there had been no large accumulation of the watery matter in the thoracic cavity and he decided that another tapping would not be necessary. The fluid sometimes collects very rapidly and it is liable to fill the cavity in two or three hours. To prevent fatal results from this source requires constant watching and Dr. Gardner keeps almost constantly near the room of Mrs. Harrison. Greater danger is now threatened from the filling of the thoratic cavity than from any other source. Mrs. Harrison passed a restless night, but she appeared in better condition this morning than she has for the past several days. Her nervous condition has prevented her from sleeping soundly for many months, and her wakefulness of last night was therefore no exception to the general rule of her condition during the time set apart for her repose. Dr. Gardner will make no prediction as to the probable outcome of the disease from which his patient is suffering Mrs. Harrison, he says, is in an extremely critical condition and further than that he will say nothing. Yesterday Drs. Gardner, Doughty and Trudau considered the advisability of removing Mrs. Harrison from Loon Lake, but they decided that such an attempt would probably be attended by fatal results. Owing to the weak condition of the patient a journey from the Harrison cottage to any place on the nearest railroad would be extremely difficult. The roads are extremely hilly and the water route is objectionable for other reasons. There is hardly a possibility that Mrs. Harrison will be removed from Loon Lake at present, unless she becomes stronger and better in every way. The doctors says, if improvement should set in, it will be very slow and it seems safe to say that Mrs. Harrison will not be ready for removal from here for a long time. Numerous letters and telegrams of sympathy with the president have been received.

HOW IT REACHED THE CITY.

A New York Paper Gives the Origin of Cholera in That City.

NEW YORK, Sept. 15.—The Herald this morning, in its article about cholera at length obtaining a foot hold in New York, says: "Three other cases have been reported as suspicious, but have not yet been approximately determined. The investigations of the Herald have shown where the cholera probably came from in at least one case and suggested the source of the other contagions. It came through the port of New York. Immigrant passengers on the steamer Freisland, which arrived here on August 29, seem to have brought the disease to Minnie Levinger, who died on September 11. They are traced back to Antwerp, which they reached from other cities in Europe, no doubt, infected with cholera. When they reached quarantine there was illness reported on board and after a few hours' detention and so-called fumigation, they were permitted to proceed. From the steamship pier the passengers scattered over the city and the country. Four young women of the company went to No. 411 East Forty sixth street, where little Minnie lived. It appears that being greatly interested in the child, they spent some idle hours playing with it. There is every reason to believe that the infection was in their clothing; that they innocently carried it about with them, escaping its dangers themselves and that from their clothing the child got the disease which carried the little one off in twenty-four hours. In the case of Callahan a plausible connection seems to be established between him and the immigrants, who arrived in the city by trans-Atlantic steamers, went south by the Mallory line, to whose pier Callahan was often taken by his business. He was a butcher. In the other instances the relatives and physicians have not been able to suggest the precise method of the infection but it seems not unlikely that it came about in some similar way."

A BULLET IN HER KNEE.

Mrs. Sprinkle Receives a Painful Injury.

Mrs. Milton O. Sprinkle, who resides on South Calhoun street, was very painfully wounded yesterday by the accidental discharge of a revolver. After breakfast she went to her chamber to tidy up the room. In removing the bedding a revolver, which was left under a pillow, caught in the fold of the comforts and was thrown to the floor, where it was discharged, the ball entering the lady's knee and imbedding itself in the bone beyond the power of the physician to extract it. The wound is a very painful one and may result in crippling the unfortunate woman for life. Mr. and Mrs. Sprinkle were recently married. The gentleman is employed at the organ factory. Mrs. Sprinkle's parents, who reside in Noblesville, Ind., have been notified of the accident and will arrive in the city today.

THE GRAND JURY

Reports a Number of Indictments—Prisoners Arraigned in Court.

The grand jury completed their session this morning and filed their report with Judge O'Rourke in the circuit court.

They reported that they had visited the county jail and the county infirmary and found both institutions being conducted in a proper manner.

They returned the following indictments: Four counts against William Koehneman, Henry Hibler and Louis Crance for burglarizing several stores; two indictments against Frank Jones for receiving stolen goods; Chas. Weeks, larceny; John Briggs, larceny; John Waters, stealing horse; John Shea, larceny; Minnie Hartman, receiving stolen property; Frederick Spangler, rape; Oscar Strayer, murder in the first degree; James Bollard, four counts for violation of the liquor law; Geo. Hiser, violation of the liquor law; John Gephart, two charges for violating the liquor law; Alfred Hickman, assault and battery; Bradley Stahley, grand larceny; Fred Schultz was acquitted of the charge of criminal negligence; Albert Cooper, arrested for receiving stolen property, was released; Maud Baldwin was held as a witness in the Crance and Hibler burglary cases.

Several of the prisoners were arraigned before Judge O'Rourke in the circuit court at 2:30 o'clock this afternoon.

Wm. Spain, a young fellow sixteen years old, was the first prisoner called. He had no lawyer. "I plead guilty," he said, and the judge gave him two years in the penitentiary. He laughed as he took his seat after Judge O'Rourke had pronounced the sentence.

Frank Jones, aged nineteen, charged with receiving stolen property, was the next man called. He pleaded not guilty.

William Felber and Albert Dunbar, who had been arrested on the charge of stealing property at New Haven, then stood up. "You are discharged from custody," said the judge. "Thank you," replied the prisoners, and they quickly left the court room.

The cases of the prisoners pleading not guilty will be heard next week.

Prosecuting Attorney Phil B. Colerick has been active in prosecuting all the cases brought before the grand jury and no guilty man has been allowed to escape. The county is fortunate in having such an able prosecutor as Mr. Colerick.

Judge O'Rourke is holding court this afternoon. He granted a divorce to the plaintiff in the case of Sheller against Sheller.

CAUGHT THE DALTONS.

Brave Marshal Williams Takes in the Party After a Bloody Battle.

PARIS, Tex., Sept. 15.—A despatch from Deming, N. M., states that Deputy Marshal Sam Williams, of Paris, has captured Bob Dalton, Grant Dalton, Amy Dalton, Sam Wings and "Three Fingered Jack," of the Dalton gang of train robbers. In the fight between the marshal's posse and the robbers two of the latter were killed and five captured. Three of the robbers are at liberty. It is supposed that the gang intended to rob the Southern Pacific while on their way to the Mexican border. Marshal Williams bears evidence of the fight, several fingers of his right hand being shot off. Shortly after the last raid by the outlaws, which occurred at Adair, Indian territory, July 14, Williams started in pursuit of the desperadoes. He followed them out of the territory into Kansas, thence to Colorado and New Mexico, where the capture was made. The Dalton gang is wanted in the Indian territory, Kansas, New Mexico and California to answer to the charge of train robbery. The rewards offered by the officials of the railroads and the express companies robbed in Kansas and Calafornia aggregate $22,000.

Dr. J. D. Hawk, physical director of the city department of the Y. M. C. A. arrived yesterday from Geneva, Wis., and all the athletic boys will be glad to learn that he is in good trim for active work, having spent the summer at a school for physical directors.

IT looks now as if John would have to pack his washee-washee basket full of his own clothes, and make tracks for the Celestial Empire, unless he carefully complies with the recent act of Congress, and gets the required official photographs. That act is soon to be enforced, and the Chinamen ought to be told, by some one who can make them understand, that no subterfuges will succeed. It may be very hard to distinguish between the photographs of one Chinaman and another Chinaman, but the deputy inspectors are expected to overcome this trouble. The child-like and bland Chinese laborer, sneaking in over the Canadian frontier under cover of his grandfather's photograph, must not be surprised if detected and held.

CHILDREN have their reticences, even toward those they love. They are often silent on what they most feel—perhaps from confused thwarted sense that their limited vocabulary, cannot tell all the emotions with which their little hearts are bursting.

RUDYARD KIPLING is now in Japan. As it is generally acknowledged that he has no manners, it may be hoped that he will form some on the Japanese model before leaving the land of the Mikado.

DONE IN THE COURTS.

Local News as Gathered at the Court House and in the Justice's and Mayor's Office.

Justice France fined Louis Hubbard $1 and costs for malicious trespass.

The last will of the late Peter Weber is filed. He leaves his estate to his wife.

The board of commissioners passed upon bills and accounts yesterday.

The will of the late Rose Irwin is filed. After personal bequests to relatives she leaves the bulk of her estate, including valuable Pittsburg property, to her brother, Dr. John S. Irwin.

In the circuit court Jacob Rohrer was divorced from Anna Rohrer.

Judge O'Rourke decided the case of Joseph S. Lower vs. Theodore Beatty et al., foreclosure for $1,222.45, and another foreclosure in favor of the Adams county bank for $1,114.88.

Mayor Zollinger fined Chas. Fry for riding a bicycle on the sidewalk.

The case of Young et al. against Wilkins et al. is on trial in the circuit court.

There was one drunk in the mayor's court this morning. He was sent to jail.

The case of John A. Peason vs. the Old Fort Wayne Manufacturing company was dismissed by Judge Dawson yesterday.

The injunction suit of John A. Pearson vs. John Dribelbiss et al. was dismissed.

John Shafer, of 6 Force street, had ninety yards of carpet stolen last night from his barn, which was hanging up there for cleaning. The property was valued at $50. There is no clue to the thieves.

Justice France fined Jacob Tilgner $15 for neglect to remove a nuisance. Dr. Metcalf is on the war path and says people in every part of the city must clean up their premises.

Tony Dinklager, the man adjudged insane Tuesday, attracted considerable attention this morning by arming himself with a club and parading the alley at the rear of his East Washington street home. All efforts on the part of friends to disarm the lunatic or persuade him to return to his home failed, and for an hour he terrorized the residents. The man is dangerous and should be confined to jail.

John Shea, who was charged with robbing Gelbert's saloon of $21, was bound over to court by the mayor. Shea lives at Wabash, Ind., and is a tinner by trade. He also worked on the Nickel Plate as brakeman, and is a brother to Tom and Will Shea now on that road. Shea had $15.95 in his pocket, but says he is entirely innocent of the crime.

JANAUSCHEK'S FAREWELL.

The Great Tragedienne's Last Appearance in This City.

Mme. Janauschek will appear here next Wednesday, September 21, at Masonic Temple the last of a certainty that she will ever be seen in Fort Wayne. On Wednesday night the play will be "Macbeth" and the performance will partake of the character of a farewell testimonial to the great tragedienne. Mme. Janauschek, though the fact is not announced on the bills, nor in the printing, is on her final tour of this country. Next spring she will be given a farewell testimonial in New York city, and she will then retire from the stage. "The reason why I have not announced this as Mme. Janauschek's final tour," said Frank Hawley, her manager, "is that I once before made that announcement, and did so through a misunstanding. The madame did not retire, and of course the fact that she began another tour was taken up as a case of bogus farewell to attract business. Therefore, though I know that this will positively be her last, I have not said so in advertising it. Mme. Janauschek will not, however, ever be seen in Fort Wayne after next Wednesday night. She has made all her arrangements to retire and to sail for Europe next spring, when she will retire to her home at Prague, Bohemia."

MAYSVILLE AMBITIOUS.

Her Citizens Want an Electric Railway to This City.

Last evening Dr. H. E. Adams, a prominent resident of Maysville, came to this city to consult with R. T. McDonald and other Fort Wayne capitalists relative to the construction of an electric railway from this city to Maysville. The business men and citizens generally of the latter enterprising town are anxious to subscribe towards the construction of such a line, and at a meeting yesterday morning in Dr. Adams' office, the latter was requested to come to this city and, as it were, feel the pulse of our capitalists The proposed line would be a continuation of the Lakeside street car tracks a distance of eleven miles. Such a road would undoubtedly be of great value to the business men of this city, as well as the citizens of Maysville, but the cost of its construction and equipment would be enormous and it is doubtful whether men with sufficient capital can be induced to embark in the enterprise.

FOR THE CHAMPIONSHIP.

Local Ball Clubs Will Play Three Exciting Games.

There is apparently some difference in opinion as to which is the best ball club in this city—Collars' "Colts," or Holland's team. To settle this question the clubs will play three games at League Park, the first one to occur next Sunday, and a game each week for two consecutive Sundays. The members of the clubs are: Collars' Colts—Heit, c; Gaffney, p; W. Raidy, ss; H. Stahl, 1b; C. Smith, 2b; J. Welsh, 3b; C. Stahl, lf; Collars, cf; Heller, rf. Holland's team—Boseker, c; Robbins, p; O'Rourke, ss; Hubbard, 1b; Bruton, 2b; Holland, 3b; Ogden, lf; Marriett, cf; Cherry, rf.

FEEBLE MINDED INSTITUTE.

A Place of Which We Should be Very Proud.

This morning's Gazette contained the following:

"Few people who have not paid a visit to the Indiana asylum for feeble minded youth realize what an immense institution is located in our midst, and what an especially good work is being done. Every one knows the location of the immense buildings, just northeast of the city, but the worth of the place is not all in the buildings. True the state has expended here probably a quarter of a million of dollars, but no money has been appropriated for a more laudable purpose in the entire history of the state.

"The Gazette representative has several times visited the institution, and it is simply wonderful to see the progress and advancement there made. It is well worth any one's time to spend a few hours in this place and witness the almost marvellous development of the unfortunates who a few years ago were a care to their parents. Of course a feeling of sadness is caused at the sight of so many unfortunates, yet one cannot help but feel rejoiced that in their affliction these lives can be made brighter and more cheerful.

"The institution at present contains over 400 children, and with all the large buildings, the place is crowded for room. Hundreds of applications for admission have been received by Superintendent Blake, and it is simply impossible to admit all who should be accorded the privileges of the situation.

"The new industrial building and the school building are now being occupied and since the completion of these structures the superintendent has been enabled to systematize the work in all depatments. In the industrial building is a complete machine shop, paint shop, carpenters' shop, shoe shop, mattress factory and tailor shops. Those inmates who can be set to work are taught in all these branches, and we were shown some excellent work turned out by the children in each of the departments. All the clothing, repairing, etc., is made at the institution by the children under competent instructors, and in this the state has saved money, besides receiving a superior quality of work.

"The school room is nicely fitted up, and many of the children are capable of acquiring quite a degree of scholarship. At the request of Superintendent Blake, on the occasion of the visit of the Gazette representative, the children were put through an exercise in calesthenics, and we very much doubt if the children in the public schools could do any better. A visit to the band room was also rewarded by several fine selections of music by the institution band.

"Everything in and about the buildings is kept in a most admirable manner. The buildings are large, well ventilated and most excellently kept. Cleanliness is an essential, and every room is a model in this regard. As a consequence, the health of the inmates is first-class, but few cases of sickness being reported.

"We cannot undertake a complete description of this magnificent institution. To do so would require much more space than we can devote for the purpose, but we cannot refrain from saying that the people of this state are debtors to Superintendent Blake and the corps of efficient assistants which he has gathered around him. Their labors are arduous and incessant, yet cheerfully do they perform them, conscious that they are doing a work as noble as any ever done for the benefit of humanity. Could the people fully realize the scope of the work done they would wonder that there should be any question as to the support and maintenance of the place. Yet, often there is a disposition on the part of legislatures to cut down appropriations for such institutions merely for the purpose of making a showing of economy before the people. We trust no Indiana legislature will attempt to cripple the school for feeble minded youth in such a manner. The institution deserves more consideration than it received, and there should be no niggardliness in regard to it. It is one of the most deserving of all the charitable institutions of the state, and the people are perfectly willing, so long as it is conducted in the present able manner, that everything possible should be done for it.

THE American and Englishman, who, to establish the superiority of the pluck of their respective nationalities, tried to climb to the crater of a volcano giving signs of coming activity, settled one thing in the horrible death which naturally befell them—that no nation can boast a monopoly of fools.

WILL BE ENLARGED.

The Grand Rapids Officials Will Build a New Bridge on West Main Street.

For some time the Grand Rapids railroad bridge over West Main street has been considered a great obstruction to travel over that thoroughfare. Time and again complaint has been made regarding the bridge. At the last council meeting a petition from J. K. Edgerton was presented asking that the bridge be removed. The council acted on this request and yesterday morning a party consisting of P. S. O'Rourke and Chief Engineer Johnson, representing the Grand Rapids road; Commissioner Stellhorn and County Engineer Goshorn, representing the county, and Councilman Oakley and City Civil Engineer Randall, representing the city, visited the bridge to consider plans for its removal.

After looking over the ground the party decided that Engineer Goshorn should make a plat of the bridge and its surroundings, and also submit a method for straightening the street at that point and for the removal of the bridge. Mr. Goshorn is to have his plans and specifications ready as soon as convenient, for inspection by the party. In the present bridge there are benches that obstruct the street and it is desired to have a clear space under the bridge of sixty feet for the street car track and the passage of vehicles.

RINGING WORDS

From a Prominent and Eminent Divine.

Statements That Are True and Straight to the Point.

Read What He Says, for His Are of Great and Peculiar Interest.

No one knows better than the faithful pastor the great value of sound physical and nerve strength. The strain upon brain and nerve, the physical exhaustion following excessive work, the responsibilities and sympathies with afflictions and the myriad cares make the earnest preacher's duties arduous and wearing in the extreme.

We do not wonder, therefore, at the strong and ringing words of praise which the eminent divine, Rev. C. D. R. Meacham, gives that most wonderful of medicines, Dr. Greene's Nervura blood and nerve remedy. When he was run down in health, weak in nerves, prostrated in strength, and with his blood impaired, he was restored to sound and vigorous health by this marvelous health renewer.

Here are the exact facts in his own words:

"I am very glad to say in regard to Dr. Greene's great remedy that when my blood was badly impoverished by an old scrofula humor, and my nervous system was greatly impaired, Dr. Greene's medicine gave me wonderful relief.

"At the present time my health is as good as at any time in my life, and my confidence in Dr. Greene's remedy is constantly increasing.

Rev. C. D. R. MEACHAM,
Pastor Baptist Church, Townshend, Vt."

We have published the testimonials of vast numbers of people who were cured by the use of the great discovery, Dr. Greene's Nervura blood and nerve remedy, but we take more pleasure in giving to the world Rev. Mr. Meacham's own words in regard to the wonderful benefits he received from this valuable remedy, because we realize that the earnest words of a minister will have great weight with sufferers from disease, and everybody who reads his convincing words in regard to the sure and remarkable curative powers of this medicine will lose no time in securing a bottle and thus obtain a cure.

It is purely vegetable and perfectly harmless, and is kept by all druggists at $1 00.

Its discoverer is the well-known Dr. Greene, of 35 W. 14th Street, New York, who gives consultation and advice free to the sick, personally or by letter. The sick should use immediately Dr. Greene's Nervura blood and nerve remedy, for it is not only the best remedy ever discovered, but those using it have the privilege of consulting Dr. Greene concerning its effects, their health, etc. This fact alone guarantees the assurance of cure. If you need a medicine do not fail to take this best of all remedies.

TOO MUCH dependence is being placed in the efficacy of frost to nip the cholera. Cleanliness and discretion are the things to rely on just now. These are within human control. Frost isn't.

AN immense hickory pole will be raised by the democracy of Pleasant township, at Sheldon, September 24. Hon. W. F. McNagny, Hon. J. M. Barrett and others are announced for addresses.

OUR weekly exchanges are now coming to the front with full particulars of the New Orleans fight. After this week the pictures of the pugilistic gentry, with fists ready for business, will be retired, in favor of aspirants for political honors.

WELL, Maine has voted, and the result is about 8,000 less republican majority than in 1888. This, coupled with the enormous loss in Vermont, must be very discouraging to the managers of the Harrison campaign. It plainly points to the loss of the close and doubtful states.

A LARGE number of union printers in New York have organized to protest against the action of Typographical union No. 6 in endorsing Whitelaw Reid. These protesting printers say Reid is still antagonistic to organized labor, but is keeping quiet for votes. Such is the general opinion.

THE mayor and the fire commissioners held a meeting in the former's office last evening to discuss plans for the new engine house. Messrs. Wing & Mahurin were present and reduced the plans so as to bring the cost of the building within the $8,000 limit. The old building now standing on the site of the engine house will be moved back and used as a tool house.

COL. ZOLLINGER, the chairman of the democratic county committee has called a meeting of the democratic county central committee for next Saturday afternoon to determine upon a date for an afternoon rally to be addressed by the Hon. Claude Matthews, democratic candidate for governor. It will be "Farmers' Day," as Mr. Matthews has expressed a willingness to come.

IRELAND'S population is now 4,904,750. Thirty years ago it was 5,798,564, and during the last forty years the island has lost 3,415,460 by emigration. Five-sevenths of these emigrants have been young people, between the ages of twenty and forty-five, and it appears that this rate of emigration of the young Irish is still continued. It is a wonder that the "green isle" has so many inhabitants left.

THE biennial convention of the Brotherhood of Locomotive Firemen is in session in Cincinnati. Unfortunately for the order a lot of politicians seek to manipulate its proceedings into an endorsement of Harrison. Just why, nobody but the politicians know. The matter has been introduced but will probably be deferred until the regular proceedings are over, when a mass meeting of republican delegates will adopt the resolutions and send them out as the action of the brotherhood. We opine there are thousands of locomotive firemen who will resent such unwarranted action. Politics and business do not mix to any great extent and will not in this instance.

THERE are more negroes living in the city of Washington than in any other city in the world—more than in St. Louis or in Baltimore or New Orleans, though every one of those three cities has a larger aggregate population than Washington. There are several smaller cities where the blacks outnumber the whites, which is not the case in Washington, for though it has more negro inhabitants than any other city, yet the whites there are more numerous than the blacks. Many of the blacks at the national capital are worthless and shiftless people. They dislike to work, and won't work so long as they can possibly shift without doing so. Politics spoiled a good many of them, just as it did a great many whites.

PARTISANS who are disposed to grumble on account of the sluggishness of this presidential campaign seem to overlook the fact that while this lack of zeal and ardor extends to all parties it is hurtful to neither. All parties are affected alike. If either one of the parties had a superabundance of enthusiasm, it would make quite a difference, but so long as all of the political armies are taking it easy no damaging effect will come upon either. It would be a good thing for the country if all future campaigns would turn out to be similar to the present one. People go about their business as usual and don't make donkeys of themselves by getting each other by the ear. That's the right way. The popular verdict will be just the same as if a de'il of a racket were raised.

Society Manners.

"These geese in stays and starch ('society' people) are ignorant of the true philosophy of good manners, which may be compressed into a single sentence," writes Walter Blackburn Harte in the New England Magazine. "The secret of good manners is an entire lack of self-consciousness. If all men were born with a proper perception of justice, bad manners could not exist. It may be somewhat vague, but the almost universal conception of justice is, that it is the interest of the stronger, as Plato's sophist has it; and a moment's review of our codes of manners will convince one that this idea is at the bottom of them all. All manners are bad which are built upon a substructure of injustice, either inflicted or suffered. These 'best people,' paupers in every essential of noble manhood, have elaborated a religion of which an immense cipher is the symbol. Their range of ideas is so limited as to merely correspond with their physical needs and indulgences, and they have invented (with a wisdom not common among geese and cockatoos) a code of manners which condemns all naturalness, individuality and thought as the brand of the pariah."

SOME time ago an eminent Cincinnati physician said: "When I began the practice of medicine a young man whose constitution was even more powerful than my own started in the practice with me. His pet theory was that a man couldn't have too much fresh air; that he wanted to have it circulate inside and outside of his body, and to that end when the rigors of winter came on he spurned thick clothing, which I insisted on wearing. If we rode together, the heaviest garment he had on was an ordinary sack coat. I wore mufflers and a greatcoat buttoned up to the chin. My young and ambitious partner has occupied a narrow home in the cemetery a great many years, placed there after a long and painful wrestle with consumption. He stuck to his thin clothing and became a martyr to his pet theory. I stuck to my heavy clothing when the weather demanded it, and I think the graveyard is a good many years away from me still."

REMARKABLE success is said to have been attained with a new process for preserving timber lately introduced in England. The agent employed is melted naphthaline, contained in a tank, in which the timber is immersed. The temperature of the bath is about 200 degrees Fahrenheit or a little below, and is evenly maintained, the heat being derived from steam pipes, passing through the tank. The timber is soaked from two to twelve hours, according to the size of the piece. It is believed that wood which is thus thoroughly impregnated with naphthaline, which takes the place of the sap and water it expels, will have peculiar advantage in its susceptibility to polish, for which merely rubbing with a cloth will be sufficient.

TWO RAILROAD companies, one in Indiana and the other in Florida, have experienced the mortification during the last few days of finding their locomotives chained to the track, as the result of legal process for debt. In one case a counter appeal to the law secured release, but in the other case inventive genius triumphed, for, although the only engine on the road continued in humiliating captivity, operations were resumed by means of a flat car rigged up with sails, and at last accounts this uncommon carrier was "making regular trips" over the entire length of the road —thirteen miles.

A WOMAN in New York who has been looking up the paying employments open to women, find that the work of a family seamstress is unfailing and well paid. If one is moderately capable she commands from one dollar to one dollar and fifty cents a day, with board, during the entire year. The best needlewomen receive from two dollars to two dollars and fifty cents a day. In one instance a good seamstress divides the entire year between two families receiving twelve dollars weekly and her board.

A PRESBYTERIAN minister of Wilmington, Del., prophesies the end of the world in 1897. He expects that in that year the Jews will be restored to the Holy Land and that they will build anew the temple against the second coming of Christ. He draws these conclusions from several much-discussed passages in the Book of Revelation, and has been preaching sermons for some time past with the special object of preparing his flock for the events of 1897.

ACCEPTANCE BY FORT WAYNE ELECTRIC RAILWAY COMPANY.

The Fort Wayne Electric Railway company hereby accepts the ordinance entitled "An ordinance relating to the construction and maintenance of a double track street railroad on Lewis street from Clinton street to Walton avenue," passed September 2, 1892, and files and tenders herewith its bond in accordance with the provisions of said ordinance.

FORT WAYNE ELECTRIC R'Y CO.,
By J. H. BASS, Pres.

Attest:
J. M. BARRETT, Sec'y.

BOND OF FORT WAYNE ELECTRIC R'Y CO.

Know all men by these presents, that the Fort Wayne Electric Railway company, Martin S. Robison, jr., John H. Bass and Stephen B. Bond, are held and firmly bound unto the city of Fort Wayne in the penal sum of five thousand ($5,000) dollars, for the payment of which well and truly to be made, said obligators bind themselves, their successors, administrators and assigns.

Signed sealed and dated this 12th day of September, 1892.

The condition of the above obligation is such that, whereas, the said city of Fort Wayne, by its common council, on the 2d day of September, 1892, passed an ordinance entitled "An ordinance relating to the construction and maintenance of a double track street railroad on Lewis street from Clinton street to Walton avenue," and by the terms of said ordinance required the said Fort Wayne Electric Railway company to enter into a good and sufficient bond with said city in the sum of five thousand ($5,000) dollars for the full performance of all the terms and conditions contained in said ordinance.

Now, then, if the above bounden Fort Wayne Electric railway company shall fully keep and perform all the terms and conditions contained in said ordinance, this obligation shall be void; otherwise to be and remain in full force and effect.

FORT WAYNE ELECTRIC R'Y CO.,
By J. H. BASS, Pres.
MARTIN S. ROBISON, JR.,
J. H. BASS,
S. B. BOND.

Approved.

Whereas, The common council in regular session, did on the 23d day of August, 1892, pass an ordinance authorizing the issuing of twenty-four thousand dollars of refunding bonds, in denominations of four thousand dollars each, payable in one, two, three, four, five and six years, and

Whereas, it is to the city's advantage as well as to the advantage of the purchaser of said bond, that the same be issued in denominations of one thousand dollars each instead of four thousand, as provided in said ordinance.

Sec. 1. Therefore be it ordained by the common council of the city of Fort Wayne (two-thirds of all the members thereof concurring) that the ordinance entitled, "An ordinance to provide for the issuing of city bonds for the purpose of paying a portion of the city indebtedness of the city of Fort Wayne, passed August, 23 1892," be and is hereby repealed.

Sec. 2. Done at the council chambers of the city of Fort Wayne this 13th day of September, 1892.

Attest:

C. A. ZOLLINGER, mayor.
RUDY C. REINEWALD, city clerk.

Read a first time and on motion a second time by its title and the rules suspended by the following vote:

Ayes, 17, viz: Councilmen Buck, Cody, Eggemann, Fox, Hanna, Hazzard, Kelnz, McClelland, Meyer, Meyer, jr., Meyer, F. C., Michael, Oakley, Pettit, Scheid, Skelton and Wolf.

Nays, none.

And the ordinance read a third time and passed by the following vote:

Ayes, 17, viz: Councilmen Buck, Cody, Eggemann, Fox, Hanna, Hazzard, Kelnz, McClelland, Meyer, Meyer, jr., Meyer, F. C., Michael, Oakley, Pettit, Scheid, Skelton and Wolf.

Nays, none.

An ordinance to provide for the issuing of city bonds, for the purpose of paying a portion of the city indebtedness of the city of Fort Wayne.

Whereas, On the 15th day of September 1877 the city of Fort Wayne issued her bonds bearing interest at the rate of 6 per cent. per annum, payable semi-annually, to the amount of $50,000, payable fifteen years after date, which bonds become due on the 15th day of September 1892, and

Whereas, There is now only sufficient funds in the hands of the treasurer of the city, not otherwise appropriated, to pay $26,000 of said bonds, leaving a balance of $24,000, and

Whereas, The annual reports of the clerk and treasurer of said city for the year ending December 31, 1891, recite and show the date of the issuing of said bonds, the rate of interest thereon and when the principal and interest on the same would become due and payable; therefore

Section 1. Be it ordained by the common council of the city of Fort Wayne, two-thirds of the members thereof concurring, that in pursuance of an act of the general assembly of the state of Indiana entitled, "An act to authorize cities to issue bonds for the purpose of funding their indebtedness, reducing the rate of interest on pre-existing obligations, compromising with creditors or taking up and cancelling bonds notes or other obligations already due or which shall hereafter become due, and making it the duty of the common council of such cities, and boards of trustees of such towns, to levy taxes for the payment of the interest and to provide sinking funds for the liquidation of the principal of such bonds and repealing all laws in conflict and declaring an emergency, approved February 15, 1877;" that bonds of the city of Fort Wayne be issued to the amount of $24,000, in sums of $1,000 each, payable to bearer at the office of the Hamilton National bank, of Fort Wayne, in the city of Fort Wayne, as follows:

Four $1,000 bonds on the 15th day of September, 1893.
Four $1,000 bonds in one year thereafter.
Four $1,000 bonds in two years thereafter.
Four $1,000 bonds in three years thereafter.
Four $1,000 bonds in four years thereafter.
Four $1,000 bonds in five years thereafter.

With interest at the rate of 5 per cent. per annum, payable semi-annually, at the Hamilton National bank, in the city of Fort Wayne, to be signed by the mayor and attested by the clerk of said city.

Sec. 2. The said bonds be issued in the following form, towit:

CENTS WORTH DOLLARS.

A Battered Old Cent Sold for $102 and a $5 Gold Piece Worth $900.

Really rare cents are far and away ahead of all the other coins in the appreciation in their values. Thus the cent of 1793 is a real little gold mine. There were several varieties of the cent coined, each struck after the die had been slightly altered. Each variety has a special value to collectors.

At one of the latest great coin sales one, with lettering on the edge reading "one hundred for a dollar," fetched $61. This coin has a head of Liberty with the hair down. Another of the same date shows the goddess with her traditional cap on. This fetched in the same sale $32. There are two other varieties of the 1793 cent, distinguished from each other by slight changes in the die, that sold in the same sale for $14 and for $17 respectively.

There is a cent of 1798 which is worth $11.25 at auction, and one of 1799 which is worth $10. The queen bee of American cents is, however, that of 1804, a specimen of which was sold in April last for $102—and it was not a perfect specimen at that, but according to collectors, is the most perfect known.

This cent by the way, has a history. In fact, most rare coins have. In this case the piece was found in the till of an Illinois country grocer. It had been paid to him by some farmer. A New York coin collector who owned property out there happened to be in town engaged in prosecuting a suit at law in regard to his land titles.

He wanted a cigar and went to the grocery to get it. He got this cent in change, and by the merest accident noticed that it was dated as it was; so he added it to his collection. The fixed standard value of an 1803 cent in the trade is $105, and 5 per cent. can be added to that figure every year.

As to values, merely as a matter of curiosity, it may be noted that in one sale a 1796 cent sold for $14.50, another for $9, and another for 20 cents. These variations in price are small mysteries known only to coin collectors, and depend generally on the state the coin is in, whether much defaced or in a clear, sharp condition.

There is a half cent of 1797 which is worth $1.00 at auction, and a nickle cent of 1856 which brings $1.75. This cent has a flying eagle on it, and is in constant demand.

The gold coins of the United States do not show the same advance as the silver and copper coins. Their intrinsic value is, of course, unimpeachable. Each is worth so much money as the gold it represents. There are certain gold coinages which have acquired a special price, from the rarity and singularity of their appearance, but the ratio of their advance has not kept pace with that of silver and copper, excepting in isolated cases.

There is a gold half-eagle of 1822, which is worth in the market $500. Only three of these coins are known. One is in the collection at the Philadelphia mint, another sold at the Parmelee sale in 1890 for $900. The third piece is the property of a prominent young collector, Mr. H. E. Deats, of Flemington, N. J.

The United States eagle ($10) of 1795 sold recently at auction for $17 as did also one of 1796. An 1804 half eagle ($5) at the same sale brought $31. The very rare ten-dollar-piece of California gold, 1852, brought only $15. There are private issues of gold money made at different times which sell well however.

The twenty-dollar-piece of Kellogg & Co., San Francisco, 1855, fetched $82; the ten-dollar-piece of Moffatt & Co., San Francisco, 1852, $27; the ten-dollar-piece, 1852, of Augustus Humbert of California, $24; the Pike's Peak ten-dollar-piece of Clark, Gruber & Co., Denver, 1860, $26, and the two-dollar-and-a-half-piece of Georgia gold, 1830, which is said to be the first coin struck by private enterprise in America, commanded $52.50 under the hammer.

There was a gold fifty-dollar-piece made in California in 1852. It is octagonal in shape and is called a "slug." It sells for $75. The Mormon five-dollar-piece, Utah, 1849, fetched $12.50 at a late sale; a two-dollar-and-a-half-piece of Clark, Gruber & Co., Denver, 1861, $9.25, and a very fine and rare two-dollar-and-a-half-piece of Carolina gold, 1834, only $3. So prices vary, as certain coins may or may not be sought for by collectors.

The gold dollar of 1840 brings $1.30, while that of North Carolina commands $2.10. The 1854 three-dollar-piece fetches $3.70. The gold dollars, coined as an experiment in 1878, sell from $1.50 to $2.50, and the four-dollar gold piece of 1879 is worth $5.50.

The finest of all pieces is called a "proof." This is a piece struck with special care and in a perfect state of preservation.

Next comes the "uncirculated" coin; that is, an ordinary coin entirely free from scratches or other traces of use. Coins which show a slight abrasion from circulation are rated as "extremely fine," and the next degree "fine." A coin which is worn, but yet in good condition, is "very good." The next stage is "good," and so it runs down to "fair," "poor" and "very poor."

Any coin dealer will pay a fair price for a good, and a very good price for an extremely rare coin. Their rates are about half the figure the pieces bring at auction.

People who give Hood's Sarsaparilla a fair trial realize its great merit and are glad to say a good for it. Have you tried it?

An Ancient Custom.

A.—Do you know where the custom of mothers taking their marriageable daughters to the watering places originated?

B.—I have no idea.

"Well, it dates back to the days of Abraham. You know it was at a well that Rebecca found her husband."

REMEDIES WORTH TRYING.

A bruise may be prevented from discoloring by immediately applying hot water or a little dry starch, moistened with cold water.

The bites and stings of insects may be at once relieved and inflammation prevented if the parts are touched with strong liquid ammonia.

Wormwood boiled in vinegar and applied hot, with enough cloths wrapped around to keep the flesh moist, is said to be an invaluable remedy for a sprain or bruise.

For neuralgia make a small muslin bag and fill it with salt, heat it hot and place it against the aching spot; it will retain the heat for a long time and will greatly relieve.

Johnny, aged four, and Harry, aged five, had been left at home with their sister, mother having gone out. When bedtime came they wanted to stay up for mother, and it was hard work to get them to bed. Harry maintained a stolid indifference, but Johnny cried lustily. Their sister listened at the bottom of the stairs, hoping that they would soon be good. At last Johnny stopped, and the listener heard him say: "You cry, Harry, I'm tired."

A Bushel of Pills.

and every one wants to stick fast in the throat, and feels as though they did stick somewhere. Away with them and take Simmons Liver Regulator. One-half tablespoonful is a dose, and it goes down pleasantly. You'll find it a mild laxative, with no griping, and does not debilitate. It quickly relieves the system of malarial poison, and cures Constipation, Indigestion, Biliousness and Sick Headache.

When the Trap is Sprung

Upon us, as it sometimes is, in a most unexpected manner by disease, we appreciate the fact that it is a most insidious foe, and that not only is it necessary to combat it by the most potent medicinal agencies, but to prevent its manifestation at all by counteracting the causes that produce it. Thus exposure in wet weather, the enforced wearing of damp clothes during a storm, a thorough draught, unaccustomed diet and water, bodily or mental overwork, are breeders of disease, but Hostetter's Stomach Bitters will prevent their inducing it. This medicine fortifies the system against the assured effects such causes would otherwise produce. To the mariner, miner, the outdoor laborer, the slave of the desk and pen, and the overworked generally, it is of the utmost advantage. Dyspepsia, kidney trouble, malaria, biliousness, all yield to it.

RAILWAYS AND SHOPS.

The Pennsylvania's Toledo Branch Telegraphers Being Discharged —Local and Personal.

TOLEDO, Ohio, Sept. 15.—The Pennsylvania railroad has commenced open war against the Order of Railroad Telegraphers, and the first gun was fired in Toledo yesterday, when old employes were discharged from the local offices because they refused to resign from the order.

Four men at the depot, who left the order at the company's request, were retained, but those who stuck to their principles are out of a job. One of the men who refused to take water was Chief Mathews, of the Toledo division of the Order of Railroad Telegraphers. He had been with the Pennsylvania company for seven years and was one of the most valued men on the road. He had never been reprimanded or never failed in his duty in all that time.

He believed that the order benefited him in the years past, and he is going to stick to it through thick and thin.

It is said that the railroad company is going to discharge O. R. T. men on the whole system and commenced operations in Toledo, where the order was the weakest of any point on the lines, and could be more easily downed. The company argued, say the men, that if they got the upper hand of the telegraphers on this division it would go a long way toward scaring the operators on other parts of the system.

There is liable to be some such like proceedings on the Columbus, Hocking Valley and Toledo railroad, as the telegraphers have presented to the company a new schedule of wages that means an increase. The Columbus, Hocking Valley and Toledo trainmen have also submitted grievances.

The Toledo, St. Louis and Kansas City railroad is the first road in the middle states to recognize the order. The officials have just agreed upon a new schedule of wages that increases the salaries of operators about $7.50 a month. There is great rejoicing among the Clover Leaf boys.

Traffic is unusually heavy on the Pittsburg and the Grand Rapids at present. From yesterday morning 'till this morning fifty-eight engines were fired up to be sent out on the road. All these engines were gotten ready by four men.

Invitations to the wedding of Frank P. Bartholomew and Miss Grace A. Kerr have been distributed among the Fort Wayne friends of the groom. The ceremony will take place in Warren, Ohio, the home of Miss Kerr, next Wednesday. Mr. Bartholomew is a foreman of one of the departments in the Rhinesmith & Simonson's factory, and is a very popular young man.

The Crestline accommodation narrowly missed running over an old woman this morning opposite the Bass shops. The old lady, who is deaf, was right in the middle of the track when the engineer succeeded in stopping his engine just as the pilot almost touched her clothing.

The rush of passengers home from eastern pleasures resorts the last few days has been remarkable. One day last week over 9,000 pieces of baggage were handled at the Debrosses street station of the Pennsylvania, in New York city. Usually from 2,000 to 3,000 pieces are handled there daily.

All the Chicago railroads are adopting measures to prevent the transportation of cholera-infected immigrants into the west. No recent arrivals from Europe are being brought from New York, or any of the eastern sea ports, who are not armed with bills of health or certificates showing that the holders do not hail from a part of Europe afflicted with the disease. Ticket agents throughout the west have received orders to discontinue absolutely the sale of prepared orders until the danger is past. Instructions have also been sent to the agents of railroads and steamship companies in Europe to send no more immigrants while the president's quarantine proclamation is in effect. This will stop the immigrant business entirely for a while and, of course, will make a considerable difference in the passenger earnings of the various roads.

A Common Sense Remedy.

In the matter of curatives what you want is something that will do its work while you continue to do yours—a remedy that will give you no inconvenience nor interfere with your business. Such a remedy is ALLCOCK'S POROUS PLASTERS. These plasters are not an experiment; they have been in use for over thirty years, and their value has been attested by the highest medical authorities, as well as by testimonials from those who have used them. They require no change of diet and are not affected by wet or cold. Their action does not interfere with labor or business; you can toil and yet be cured while hard at work. They are so pure that the youngest, the oldest, the most delicate person of either sex can use them with great benefit.

Beware of imitations, and do not be deceived by misrepresentations. Ask for ALLCOCK'S, and let no solicitation or explanation induce you to accept a substitute.

AN ORDINANCE

An ordinance regulating the maintaining or carrying on concerts, plays or varieties in licensed liquor saloons and providing penalties therefore.

Whereas, The maintaining and carrying on of concerts, plays or varieties, employing male and female performers, or either in saloons, where intoxicating liquors are sold, attract disorderly crowds and tend to disturb the peace and quietude of the public, as well as being opposed to common decency and good morals.

That such evil influences may be abated and the good morals of the city preserved.

Therefore be it ordained by the common council of the city of Fort Wayne two-thirds of all the members concurring, that it shall be unlawful for any person or persons, owning, maintaining or running any saloon in which there is sold intoxicating liquors within the corporate limits of the city of Fort Wayne to carry on, maintain therein or in connection therewith or permit or cause to have carried or maintained therein, or in connection therewith, any public concert, play or variety show, free or otherwise, employing, engaging or permitting to take part therein male and female performers or either.

Sec. 2. Any person or persons violating any provision of this ordinance shall, upon conviction, forfeit the license and pay a fine of not more than one hundred dollars.

Done at the council chamber, city of Fort Wayne, Ind., this 30th day of August, 1892.

C. A. ZOLLINGER, Mayor.
Attest: RUDY C. REINEWALD, city clerk.

If Barytes and other adulterants of White Lead are just as good as

Strictly Pure White Lead

Why is it that all the bogus and adulterated white leads are always branded "Pure," or "Strictly Pure White Lead?"

No one ever puts a misleading brand on an article of merchandise, unless he wants to "work off" an inferior for a better.

This Barytes or Baryta, is a heavy white powder, worthless as paint; costing only about one cent per pound and is used to adulterate and cheapen the mixture. No one ever adulterates white lead with an article costing more than Lead.

If you purchase any of the following brands you are sure of having strictly pure white lead—

Fruit House Prices for 1892.

The season of 1892 opens auspicious for the purchaser. There are few lines of goods but what there has been a decline in, and especially in sugars, but also in Coffees, Raisins and California Dried and Canned Fruits. When Sugars touched 5c for Granulated every one felt as this would be bottom, for that was a plump reduction of 2c per pound, but now Granulated is 4½, another half-cent decline. At no time in World's History has Sugars been so low as now. We even sell a good

Brown Sugar for 3c lb.
Best Ex. C Yellow, 4c lb.
Standard Granulated, 5½c lb.
Powdered Sugar, 5½c lb.
Standard A Sugar, 5c lb.
Cut Loaf Sugar, 5½c lb.

COFFEE! COFFEE! COFFEE!

Coffee—The reduction of 3c per pound which we made last circular still holds good, although in Rio and New York there has been a stiffening up of prices of about 1 and 2c per pound, but we having a good large stock purchased when the market was down, we are enabled to continue our reduction of 3c per pound on all grades of Rio, Java and Mocha.

Rio Coffee, best green, 19c.
Old Government Java Green, 27c.
Roasted Rio, best, loose or in packages, 20c.
Mocha, Roasted, 33c.
Good Green Rio, 17c.
Best Mocha, green, best quality, 30c.
Old Java, Roasted, 32c.
Best brand Package Coffee, 21c lb.

TEAS! TEAS! TEAS!

The Tea Market has undergone no change, indeed they are so cheap now, that there is little likelyhood of their going lower. The trade in them is growing rapidly. We now sell twenty chests, where we formerly sold one. The secret of our great Tea trade lies in the fact that we purchase direct of the importer, and retail direct to our customers, thereby saving them the profit of the Jobber and wholesale merchant which is at least 10 to 20c per pound.

FRESH LOCAL LINES.

Miss Ada Heller is visiting friends in Kansas.

The Tippecanoes will hold a special meeting tonight at the Morton hall.

Frank E. Tracy, representing Madame Janauschek, was in the city today.

Dr. Martz has returned from Waterloo, where he went on professional business.

Charles Ehrman, the Main street barber, has returned from his tour through the west.

Mrs. Henry Geny left for Lafayette yesterday, where she will be the guest of friends for two weeks.

Charlie Vance has returned home from Minneapolis, where he has been visiting for the past week.

Mrs. H. E. Drummond and children are attending the races and visiting relatives at Huntington this week.

Miss Grace White has accepted the chairmanship of the candy booth at the kirmess to be given by the battery.

Mrs. A. H. Hamilton and son, Tabor, left yesterday for Concord, N. H., where the young man will enter St. Paul's school.

Miss Ella Kemp, who has been visiting Miss Mary McPhail for the last two weeks, returned to her home in Chicago yesterday.

Mr. Benz, a retired farmer, has moved into one of his houses on the north side. He will reside at Cass and Third streets.

Miss Lola Conover, of 372 East Wayne street, returned from Bluffton after a pleasant sojourn of two weeks with relatives and friends.

Mrs. Susan C. Hoffman, Mrs. E. T. Williams and son, Francis, leave tonight for Washington, D. C., where they will remain for several months.

F. Cockins, Auburn; W. E. Salisbury and George Witker, Toledo; J. R. Williams, Chicago; W. P. Rice, Dayton; R. L. Houser, Auburn, and Thomas McMahon, Dixon, are at the Randall.

The Huntington county fair is in progress this week. The exhibition is a first-class one, and many Fort Wayne people will attend at least one day.

The Valparaiso Sun says: "Mrs. Mary Brady, of Fort Wayne, who has been the guest of Mrs. Maggie Daly, went to Chicago today to visit her daughter."

The republicans will have a rally at Avilla on Saturday. Hon. A. J. You, candidate for congress, and Mr. Hayden, of Fort Wayne, will be present to address the people.

The Huntington Herald says: "F. Noll, of Fort Wayne, was the guest of Huntington friends, Tuesday.—G. W. Stults has returned from Fort Wayne, where he visited his brother."

Among the registered guests at the Wayne are F. R. Denzer, M. Wilmer and T. F. Hoagland, New York; E. N. Gage, Cleveland; A. K. Smith, Muncie; Edward Bossbery, Buffalo; M. F. Gerrish, Seymore, and A. C. Magnus, Chicago.

Last night Dr. Albert E. Bulson, of this city, was married to Miss Maud JueDevine, of Detroit, at the bride's home, 105 East Adams street. Dr. Bulson, who came to this city only a short time ago, has made many friends who will be glad to learn that the happy couple will reside in this city after a trip in the west.

Mr. and Mrs. John McCoy, of 80 Chicago street, have two children very sick with diphtheria. The disease has also appeared at No. 76 Chicago street, where the little daughter of Mr. and Mrs. E. C. Hunt is the victim. It is feared that diphtheria may break out in epidemic form on Chicago street, as the neighborhood is densely populated.

Edward Schroeder, of 80 Oliver street, met with a painful and peculiar accident last evening. While feeding his cow the animal threw its head in such a manner as to send the horn into Mr. Schroder's mouth splitting the tip of his tongue. The wound is a very painful one and it required two stitches to hold the parts together. Dr. John J. Ogle was the attending physician.

Dr. J. W. Younge, addressed a crowded house at Findlay, Ohio, last night, on "Wonders of the Human Body." He tells us that the annual reunion of the Forty-ninth Ohio regiment was held at Findlay yesterday and was an interesting occasion. Gen. W. H. Gibson, the eloquent soldier orator, of Tiffin, Ohio, who was the colonel of the regiment, was present and delivered an address. General Gibson is well known in this city and is a favorite among soldiers everywhere.

The Muncie Times, of Sunday morning, prints a sensational article purporting to give some past history of George Stoll, late state secretary of the people's party. The paper says two women "have the right to call him hubby," and makes other similar allegations. While secretary of the people's party Stoll published a paper at Muncie and spent most of his time in Indianapolis. Here he represented himself as an unmarried man and kept company with a young lady until she declined his further attentions.

The Union club will hold a meeting tonight.

The "Pulse of New York" troupe stopped at the Aldine.

Miss Mary McCarthy, of Columbia City, is visiting relatives in this city.

The Germania Building and Loan association will have a meeting this evening.

Mrs. Dr. Enslen left yesterday for Lima, Ohio, where she will visit her relatives.

M. S. Robinson, jr., of the electric car line, has returned from a business trip in Ohio.

William C. Cooper, manager of the Borton institute at Warsaw, was in the city last night.

M. E. Burns, of the advertising department of the Journal, who has been ill for the past week has recovered.

Mrs. Brainard Rorison and daughter, after a two weeks' visit with relatives in Minneapolis, have returned home.

Miss Ellen Spencer, who went to Burlington, Iowa, to attend Virgil-Spencer nuptials, has returned home.

The Wabash took twenty-three passengers to Washington last night by way of the Baltimore and Ohio railroad.

The old Maysville road in Lakeside is rapidly being graded down and Lake avenue will soon be in a fine condition.

Montgomery Hamilton and family have returned home from Mackinaw, where they have been spending the summer.

Kenneth Beers, of Summerville, Pa., was in the city today, the guest of his uncle, Dr. M. A. Mason. Mr. Beers is en route to Chicago.

There were three sections to No. 8, the vestibule train on the Pittsburg, last night with an average of thirteen coaches, enroute to Washington.

This morning Roazek Bechara, an Arabian peddler residing at 125 Fairfield avenue, died of dyspepsia, at the age of thirty-three. The deceased had been a sufferer from this disease for the past three months. The funeral occurred this afternoon from the house.

Yesterday afternoon Peter Schramm, corner of Madison and Clay streets, while riding his bicycle attempted to cross the street car track, when the wheel slipped from under him and he fell upon his left arm severely spraining it. Dr. J. W. McCausland attended the injury.

Charles Laisure, aged one year and five months, son of Mr. and Mrs. Daniel Laisure, of 42 Bass street, died at 4:40 o'clock yesterday afternoon, of lung fever. The funeral will start from the house at 8 o'clock tomorrow morning, driving to Five Points, where the services will be held and the burial made.

Last night about 8:30 o'clock as Will Hawk and W. J. Newingham were driving north on Fairfield avenue they collided with a bicycler who was riding very rapidly. The horse became frightened and dragged the man and wheel about twenty-five feet before he could be stopped. The wheel was literally broke to pieces, but, strange to say, the man was uninjured.

An interesting marriage ceremony was performed at the Cathedral at 9 o'clock this morning, the contracting parties being Harry Minnich and Miss Alice Ryan. The bridesmaid was Miss Addie Minnich, while Joseph Ganzer officiated as groomsman. Mr. and Mrs. Minnich left for Cleveland, via the Nickel Plate, this afternoon, on a short bridal tour. After next Monday they will be at home to their friends at 56 Runion avenue.

The Democratic club met last night at the Randall hall and organized with a membership of 326. The club was christened the German Democratic Cleveland and Stevenson club, and the following officers were elected: President, J. D. Sarnighausen; vice-president, John B. Monning; secretary, Otto Cummerow; treasurer, Otto Herbst; trustees, Fred Meyer, P. W. Shaden, Henry Rurmuehlen, Christen Piepenbrink and Herman Micheal. The club will rent Randall hall for its meetings Wednesday evening of each week and a constitution and by-laws will be adopted.

CONGREGATIONAL CORNER STONE.

The Ceremonies Attending Its Laying Very Impressive.

The ceremonies attending the corner stone laying of the Congregational church, at the corner of Harrison and Jefferson streets yesterday afternoon were very interesting and were witnessed by a great many people. Rev. J. S. Ainslie, the pastor, opened the services by stating the object of the meeting and his remarks were followed by a fervent prayer by Rev. J. M. Boggs, of the Third Presbyterian church. The congregation then joined the church choir in singing the hymn, "Coronation." The address of the day was made by Rev. E. D. Curtis, a Congregational minister from Indianapolis. Prof. Miles' quartet then rendered a selection. Other addresses were made by Revs. G. N. Eldridge, J. L. Leeper and J. M. Boggs. The "corner stone" was a tablet twenty-one by thirty-six inches, properly inscribed and placed in the center of the two entrances. Behind this was the box in which were placed by W. E. Mossman some files of Fort Wayne newspapers, coins and other articles.

At the close of the exercises the people adjourned to the old Plymouth church, where the ladies served a banquet, and the evening was spent in social intercourse.

THE DREAD DISEASE.

Discussed by Dr. Hibberd, of Richmond, Ind.

Dr. Hibberd, one of the leading physicians of the state and a gentleman who has made a study of cholera, gives the following interesting information:

Cholera is endemic in Bengal, India; only epidemic in the United States.

1. It is not contagious by contact.
2. It is infectious through the alvine discharges, after a period of maturation of uncertain duration outside the body. Similar to typhoid fever.
3. Its essential cause is the comma bacillus.
4. The bacillus is chiefly communicated to man through water.
5. Its period of incubation is usually from two to four days; may be less.
6. Its first stage is usually one or more days of diarrhoea; cholerine.
7. The diarrhoeal stage is the most amendable to treatment.
8. There are bacilli in all discharges from the bowels in cholera.
9. All discharges from the bowels should be disinfected promptly.
10. There are no bacilli in the ejections from the stomach.
11. In the presence of cholera all drinking water should be boiled.
12. Pure air, pure water, pure surroundings are safeguards against cholera; and
13. Good food and regular habits are protective adjuncts.
14. Persons in good health and of good habits should not make any changes of food or exercise in the presence of cholera.
15. Even moderately unhygenic methods of living of long standing should not be suddenly changed in the presence of cholera.
16. Great fear of cholera makes one more liable to an attack.
17. When one is well no medicine should be taken to prevent cholera.
18. The comma bacillus outside the body can flourish only in water or moisture, alkaline in reaction, with a temperature above 60 degrees F.
19. All acids destroy the comma bacillus. The bacillus cannot pass an acid stomach.
20. Drying destroys all comma bacillus. The fouled cholera fabrics hung in the sun until dry retain no living cholera bacillus.
21. All decided acids would make reliable disinfectants.
22. Rapid drying in the sun would be a reliable disinfection of cholera soiled garments.
23. If the cholera should visit Richmond a maximum number of cases to be expected would be 170; i. e., one case to 100 inhabitants.
24. Most likely the cases would not exceed 85; i. e., one case in 200 inhabitants, and the deaths would probably not exceed 30.
25. Probably 13,000 of the citizens of Richmond, who are in fair health, with regular and temperate habits of living, eat sound food, and are not afraid of cholera, nor from depression from other causes, are free from all liability to cholera.

HOW MINES ARE SALTED.

A Coarse Thread Let Out the Secret In One Case In Utah.

An amusing story is told by the famous geologist, Clarence King, of an investigation which he made of an alleged silver mine in Utah, relates the Kansas City Times. He undertook the task at the instance of certain capitalists who proposed to buy the property, which was represented to be of enormous value. Appearances were certainly very much in its favor. On the way down the shaft the walls on every hand gleamed brightly with shining ore in the light thrown by the lamps, and the sides of the drifts were equally beautiful to the eye of the observing expert. However, while examining the rock more critically he noticed by chance a coarse thread hanging out of it. Ordinarily threads do not grow in rock, and the finding of this one led to the discovery of the whole swindle, for the fact was developed that the owner of the mine had taken a great quantity of galena, reduced it to powder, made it with water into plaster and carefully stuccoed the entire walls of shaft and drift with the material. The plaster was carried for this purpose in gunny sacks, a thread from one of which got mixed up with it.

Perhaps even funnier was the salting of a mine in Colorado which was bought by ex-Senator Tabor by order from some friends of his in Denver. Chicken Bill, a prospector of rather disreputable notoriety, did the job, performing it so successfully that $10,000 was paid over to him for the property without any question. He was so elated over the transaction as to be unable to keep the secret, communicating it to a number of intimate friends. In this manner the news reached Denver, and the people who had employed Tabor as their agent in the matter refused to receive the mine. So Tabor, finding it left upon his hands determined to make the best of the situation and proceeded to dig further in the hole. He pierced the rock ten feet further and came upon a body of ore which proved to be the richest ever found in the state.

The gullibility of persons who buy mines has passed into a proverb. It is said that such properties have actually been salted with half-melted silver dollars and sold to investors, who did not realize that the precious metal was not found in nature with the stamp of the mint upon it. Undoubtedly the most scientific method of accomplishing this sort of swindle is to apply the silver in the shape of a nitrate solution. When it is ready for use, some salt is put into it, and it is squirted over the rock, the salt causing an immediate precipitation of the metal in a manner that is equally conspicuous and deceptive to the eye.

THE WONDER OF ALASKA.

A Wall of Blue Ice a Mile Long and Four Hundred Feet High.

The Muir glacier, which is the great wonder of Alaska, was doubtless discovered by Vancouver in 1794, but John Muir was the first to describe it.

Muir Inlet at the head of the Glacier bay, is the termination of this great "river of ice." The wall of blue ice is there a mile long and about 400 feet high.

It is worn into towers, castles and caverns, and is continually discharging fragments from the size of a paving stone to that of Cologne cathedral.

Those falling into the sea cast up the spray for hundreds of feet into the air, and send forth waves which dash upon the shores and echo like thunder among the mountains.

The Muir glacier is really a sea of ice, with numerous branches in the valley, any one of which is as large as the Gomar of Aletch glacier of Switzerland.

It is, according to Mr. S. P. Baldwin, a recent visitor, as large as all the Alpine glaciers in one, being 1,200 square miles in area. The ice is 1,000 feet thick at the mouth of the Muir inlet, and the glacier is estimated to comprise as much water as Lake Erie.

It discharges 77,000,000,000 feet as icebergs, and 175,000,000,000 feet of water by melting every year. The center of the glacier, where the motion is the quickest, is so rough and broken into crevasses that it is considered impassable. The eastern half, however, can be traveled as far as the neve.

Prof. Wright has found the motion at the center to be as much as 65 feet a day, whereas that of the Alpine glaciers is only 33 inches or so. As much as 90 feet a day has been found in the case of a Greenland glacier. The Muir glacier once extended much further into the bay, and is now receding every year, while the sources of ice supply are failing.
